

## Community evacuation information for seniors

Preparing for and responding to hazards such as wildfires, floods, landslides, earthquakes and severe weather requires special consideration of seniors' needs.

Seniors who live alone or are sick or disabled will need special support and an emergency plan.

### What will happen if I have to evacuate my home in an emergency?

If the police or RCMP orders you to evacuate your home or community, leave the area immediately. You are at risk.

Follow all instructions from local officials. Do not return home until emergency authorities say it is safe to do so.

### How can I prepare to evacuate in an emergency?

Create a trusted support network of at least 3 people to assist you during an emergency. Give them keys to your home and add their contact information to a shared emergency plan.

Tell your support network about any health conditions or medications. Show them how to use specialized medical mobility equipment, such as lifts, wheelchairs or scooters.

Arrange for your support network to immediately check on you after a disaster.

### What supplies should I have for an emergency?

Planning ahead and thinking about your personal needs is important. Prepare a grab-and-go bag in case you need to leave your home quickly.

For pet owners, preparing for your pets is just as important. For more information, see [www2.gov.bc.ca/assets/gov/public-safety-and-emergency-services/emergency-preparedness-response-recovery/embc/preparedbc/preparedbc-guides/preparedbc\\_prepare\\_your\\_pets.pdf](http://www2.gov.bc.ca/assets/gov/public-safety-and-emergency-services/emergency-preparedness-response-recovery/embc/preparedbc/preparedbc-guides/preparedbc_prepare_your_pets.pdf).

### Basic items for a 72-hour grab-and-go bag:

- Water
- Food (ready to eat)
- Small first aid kit
