

Immunization Schedule for B.C. School Age Children

Vaccine	Grade 6	Grade 9
<u>Human Papillomavirus (HPV) Vaccines</u> (#101b) ³		
<u>Meningococcal Quadrivalent Vaccines</u> (#23b)		
<u>Tetanus, Diphtheria, Pertussis (Tdap) Vaccine</u> (#18c)		

Note: The vaccine schedule can change. Speak with your health care provider, or call **8-1-1** if you have questions. This immunization table was developed and reviewed by HealthLinkBC, BC Ministry of Health and BC Centre for Disease Control.

¹ The chickenpox vaccine is offered to students in grade 6 who did not receive 2 doses when they were younger. It is not necessary for those who had chickenpox or shingles disease, confirmed by a lab test, at 1 year of age or older to get the vaccine.

² Children who were not previously immunized or did not complete their infant hepatitis B vaccine series will be offered hepatitis B vaccine for free in grade 6.

³ The HPV vaccine is provided free to girls and boys in grade 6 as a series of 2 doses given 6 months apart.
